

About Max Ventures & Industries

Max Ventures and Industries Limited (MVIL), a part of the US\$ 2 billion Max Group, is the holding company for Max Speciality Films, an innovation leader in the Speciality Packaging Films business. In addition to manufacturing, the Company also serves as the Group's entrepreneurial arm to explore the 'wider world of business', especially taking cues from the economic and commercial reforms agenda of the present Government and the positive initiatives of the Prime Minister, including 'Make in India', 'Skill India', 'Digital India', among others.

The Company's vision is to address the wider world of business opportunities in India and abroad with fresh standards of entrepreneurial excellence. This vision is founded on a clear set of values that are shared across the Group – Sevabhav, Excellence and Credibility.

The current policy thrust of 'Make in India' campaign, has the potential to reinvigorate the Indian industrial sector and is a key driving force for the Company.

MVIL is listed on the Bombay Stock Exchange as well as the National Stock Exchange. The Max Group's investor base includes marquee global financial institutions such as Goldman Sachs, IFC Washington, Temasek, Fidelity and New York Life.

The other listed entities in the Max Group are Max Financial Services Limited, which house the life insurance business, and Max India Limited, which houses subsidiaries in healthcare, health insurance and senior living.

Following the demerger of the erstwhile consolidated Max India Limited, the Max Group continues to be bound together by common values and works together to benefit from enterprise synergies.

About Max Speciality Films:

A subsidiary of Max Ventures and Industries Limited, MFSL manufactures BOPP (Biaxial Oriented Polypropylene) films of differentiated quality. In Europe, the US and India, MFSL films are the material of choice across packaging, graphic lamination and label applications: flexible packaging for processed foods, confectionery, non-food fast moving consumer goods (FMCG) and industrial goods.

Established in 1990, MSFL is now at the forefront of both BOPP and lamination technology in India. Supported by a well-equipped R&D lab, the state-of-the-art manufacturing facility near Chandigarh produces 54,000 TPA of high quality films.

Known for its global standards, innovation and customer service, MSFL has carved a distinct reputation for itself both in India and overseas.
