

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF MAX I LIMITED

Report on the audit of the Financial Statements

Opinion

We have audited the financial statements of M/s Max I Limited ("the Company"), which comprise the balance sheet as at March 31, 2020, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (herein after referred to as "financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, of its profit and total comprehensive income, changes in equity and its cash flows for the year then ended on that date.

Basis for opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information Other than the financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' Report, but does not include the financial statements and our auditor's report thereon.

The other information is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements, our responsibility is to read the other confirmation identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate action as applicable under the relevant laws and regulations.

Responsibilities of management and those charged with governance for the financial statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section

143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by section 143(3) of the Act, we report, to the extent applicable, that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
 - c. The balance sheet, statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account;
 - d. In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act.

- e. On the basis of the written representations received from the directors as on 31st March, 2020, and taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Act;
- f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B"; and
- g. The Company has not paid/provided for managerial remuneration, accordingly the provisions of section 197 read with schedule V of the act are not applicable to the company.
- h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i) The Company does not have any pending litigations which would impact its financial position;
 - ii) The Company did not have any long-term contracts including derivatives contracts for which there were any material foreseeable losses;
 - iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

The Annexure referred to in paragraph 1 under "Report on Other Legal and Regulatory Requirement" section of our Independent Auditors' Report to the members of the Company on the financial statements for the year ended March 31, 2020, we report that:

1. (a) The Company has maintained proper records showing full particulars, including quantitative detail and situation of fixed asset.

(b) The fixed asset have been physically verified by the management during the year and no discrepancies were noticed on such verification. In our opinion, the frequency of verification of the fixed asset is reasonable having regard to the size of the company and the nature of its asset.

(c) The company does not hold any immovable property (in the nature of 'Property, plant and equipment). Accordingly, the provisions of clause 3 (i) (c) of the order are not applicable.
2. As the Company does not have any inventory, accordingly clause (ii) of paragraph 3 of the Order is not applicable to the Company.
3. According to the information and explanation given to us, the Company has not granted any loan, secured or unsecured to Companies, Firms, Limited Liability Partnership or other parties covered in the register maintained under Section 189 of Companies Act. Accordingly the clause (iii) of paragraph 3 of the Order is not applicable to the Company.
4. The Company has not granted any loans or made any investments, or provide any guarantees or security to the parties covered under Section 185 and 186. Therefore, the provisions of Clause 3(iv) of the said Order are not applicable to the Company.
5. The Company has not accepted any deposit during the year, therefore the provisions of the clause (v) of Paragraph 3 of the Order are not applicable to the Company.
6. According to the information and explanation given to us, we are informed that the maintenance of cost records has not been prescribed by the Central Government under sub-section (1) of section 148 of the Companies Act 2013 for the business activities carried out by the company. Accordingly clause (vi) of paragraph 3 of the Order is not applicable to the Company.
7. According to the information and explanation given to us, in respect of statutory dues:
 - a) According to information and explanations given to us and on the basis of our examination of the books of accounts, and records, the Company has been generally regular in depositing undisputed statutory dues including Provident Fund, Employees State Insurance, Income-Tax, Goods and Service Tax, Duty of Customs, Cess and any other statutory dues, as applicable with the appropriate authorities.

According to the information and explanations given to us, no undisputed amounts payable in respect of the above were in arrears as at March 31, 2020 for a period of more than six months from the date on when they become payable.

- b) According to the information and explanations given to us and the records of the Company, there is no due in respect of income tax, goods and service tax and duty of customs as on 31st March 2020 which have not been deposited on account of disputes.
8. According to the information and explanations give to us and based on our examination of the records of the Company has not defaulted in repayment of dues to any debenture holders. The company did not have any outstanding loans from bank, financial institution and government during the year.
 9. The Company has not raised money by way of initial public offer or further public offer (including debt instruments) and term loan during the year. Accordingly, clause (ix) of the paragraph 3 of the Order is not applicable.
 10. According to the information and explanations given to us, no material fraud by the Company or on the Company by its officers or employees has been noticed or reported during the course of our audit.
 11. As the Company has not paid/provided for managerial remuneration, accordingly clause (xi) of paragraph 3 of the Order is not applicable to the Company.
 12. As the Company is not a Nidhi Company, accordingly clause (xii) of paragraph 3 of the order is not applicable to the Company
 13. According to the information and explanation given by the management, all transaction with related parties are in compliance with section 188 of Companies Act, 2013 wherever applicable and the details have been disclosed in the notes to financial Statement, as required by the applicable accounting standards. The provision of section 177 are not applicable to the company and accordingly reporting under clause 3(xiii) in so far as it relates to section 177 of the Act is not applicable to the company and hence not commented upon.
 14. During the year the Company has not made any preferential allotment or private placement of shares or fully or partly paid convertible debentures and hence reporting under clause 3 (xiv) of the Order is not applicable to the Company.
 15. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or persons connected with him. Accordingly, clause (xv) of the paragraph 3 of the Order is not applicable.

16. The Company is required to be registered under section 45-IA of the Reserve Bank of India Act, 1934 and it has obtained certificate of registration dated 5th April 2019.

“ANNEXURE B” TO THE INDEPENDENT AUDITOR’S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF MAX I LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of M/s Max I Limited (“the Company”) as of March 31, 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Companies (Indian Accounting Standard) Rule, 2015. The Company has prepared its financial statements in accordance with accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP).

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value

- (i) Certain financial assets and liabilities

Financial Statement are presented in INR and all values are rounded to nearest thousands (INR 000) except when otherwise stated

2.2 Summary of significant accounting policies

a. Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- (i) Expected to be realized or intended to be sold or consumed in normal operating cycle
- (ii) Held primarily for the purpose of trading
- (iii) Expected to be realized within twelve months after the reporting period, or
- (iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- (i) It is expected to be settled in normal operating cycle
- (ii) It is held primarily for the purpose of trading
- (iii) It is due to be settled within twelve months after the reporting period, or
- (iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

b. Property, Plant and Equipment

Property, Plant and equipment including capital work in progress are stated at cost, less accumulated depreciation and accumulated impairment losses, if any. The cost comprises of purchase price, taxes, duties, freight and other incidental expenses directly attributable and related to acquisition and installation of the concerned assets and are further adjusted by the amount of CENVAT credit and VAT credit availed wherever applicable. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their respective useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognized.

The company identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset.

Capital work- in- progress includes cost of property, plant and equipment under installation / under development as at the balance sheet date.

Max I. Limited

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Depreciation on property, plant and equipment is provided on prorata basis on straight-line method using the useful lives of the assets estimated by management and in the manner prescribed in Schedule II of the Companies Act 2013. The useful life is as follows:

Assets	Useful lives estimated by the
Computers	3- 6 Years

c. Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Internally generated intangibles, excluding capitalized development cost, are not capitalized and the related expenditure is reflected in statement of Profit and Loss in the period in which the expenditure is incurred. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

The useful lives of intangible assets are assessed as either finite or indefinite. Intangible assets with finite lives are amortized over their useful economic lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life is reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit and loss in the expense category consistent with the function of the intangible assets.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from disposal of the intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the assets are disposed off.

Intangible assets with finite useful life are amortized on a straight line basis over their estimated useful life of 3-6 years.

d. Impairment of non financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's, recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

The Company bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Company's cash-generating units to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of five years. For the remaining economic life of the asset or cash-generating unit (CGU), a long term growth rate is calculated and applied to project future cash flows after the fifth year.

Impairment losses including impairment on inventories, are recognized in the statement of profit and loss.

After impairment, depreciation is provide on the revised carrying amount of the asset over its remaining economic life.

An assessments is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset's or cash-generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit and loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

e. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(i) Financial assets

The Company classified its financial assets in the following measurement categories :-

- Those to be measured subsequently at fair value (either through other comprehensive income or through profit & loss)
- Those measured at amortized cost

Max I. Limited

Initial recognition and measurement

All financial assets (other than equity in subsidiaries) are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Equity investment in subsidiaries are recognised at cost. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset. The difference between the transaction amount and amortised cost in case of interest free loan to subsidiaries based on expected repayment period is considered as deemed investment.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- (i) Debt instruments at amortized cost
- (ii) Equity instruments at fair value through profit or loss (FVTPL)

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- (i) Business model test : The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows (rather than to sell the instrument prior to its contractual maturity to released its fair value change), and
- (ii) Cash flow characteristics test : Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. EIR is the rate that exactly discount the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate to the gross carrying amount of financial assets. When calculating the effective interest rate the company estimate the expected cash flow by considering all contractual terms of the financial instruments. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade and other receivables.

Equity investments of other entities

All equity investments in scope of IND AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognized by an acquirer in a business combination to which IND AS103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income all subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognized (i.e., removed from the Company's statement of financial position) when:

- the rights to receive cash flows from the asset have expired, or
- the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass through" arrangement and either;
 - (a) the Company has transferred the rights to receive cash flows from the financial assets or
 - (b) the Company has retained the contractual right to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all the risks and rewards of the ownership of the financial assets. In such cases, the financial asset is derecognized. Where the entity has not transferred substantially all the risks and rewards of the ownership of the financial assets, the financial asset is not derecognized.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

Max I. Limited

Impairment of financial assets

In accordance with IND AS 109, the Company applies expected credit losses (ECL) model for measurement and recognition of impairment loss on the following financial asset and credit risk exposure

- Financial assets measured at amortised cost; eg Loans, Security deposits, trade receivable, bank balance , other financial assets etc.

The Company follows “simplified approach” for recognition of impairment loss allowance on trade receivables. Under the simplified approach, the Company does not track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of trade receivable and is adjusted for estimates. At every reporting date, the historical observed default rates are updated and changes in the estimates are analyzed.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the Company reverts to recognizing impairment loss allowance based on 12- months ECL.

Reclassification of financial assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognized gains, losses (including impairment gains or losses) or interest.

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognized gains, losses (including impairment gains or losses) or interest.

(ii) Financial liabilities

Initial recognition and measurement

Financial liabilities are classified at initial recognition as financial liabilities at fair value through profit or loss, loans and borrowings, and payables, net of directly attributable transaction costs. The Company financial liabilities include loans and borrowings including bank overdraft, trade payable, trade deposits, retention money and other payables.

The measurement of financial liabilities depends on their classification, as described below:

Trade Payables

These amounts represents liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 90 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at fair value and subsequently measured at amortised cost using EIR method.

Max I. Limited

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognised in the statement of profit and loss. Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in IND AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognised in OCI. These gains/ loss are not subsequently transferred to profit and loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The Company has not designated any financial liability as at fair value through profit and loss.

Loans and borrowings

Borrowings are initially recognised at fair value, net of transaction cost incurred. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortization process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the standalone balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

f. Revenue recognition

Revenue from contracts with customers is recognised when control of the services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those services. The following specific recognition criteria must also be met before revenue is recognized:

Gain on sale of Investments

On disposal of an investment, the difference between the carrying amount and net disposal proceeds is recognised to the profit and loss statement.

Interest Income

For all debt instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in finance income in the statement of profit and loss. Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate.

g. Taxes: Taxes comprises current income tax and deferred tax

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance with the Income Tax Act, 1961 and the income computation and disclosure standards (ICDS) enacted in India by using tax rates and tax laws that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate, if any.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences except:

- ▶ When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- ▶ In respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Max I. Limited

Deferred tax assets (including MAT credit) are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized except:

▶ When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

▶ In respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised

The carrying amount of deferred tax assets (including MAT credit available) is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside the statement of profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

The Company recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognizes MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement." The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period.

Sales/ value added tax/ GST paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the amount of sales/ value added taxes/ GST (Goods and Service Tax) paid, except:

▶ When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable

▶ When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance s

h. Borrowing costs

Borrowing cost includes interest expense as per effective interest rate [EIR]. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset until such time that the asset are substantially ready for their intended use. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

i. Provision and Contingent liabilities

Provisions

A provision is recognized when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value (except where time value of money is material) and are determined based on the best estimate required to settle the obligation at the reporting date when discounting is used, the increase in provision due to passage of time is recognised as finance cost. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases, where there is a liability that cannot be recognized because it cannot be measured reliably. the Company does not recognize a contingent liability but discloses its existence in the restated financial statements unless the probability of outflow of resources is remote.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date.

Max I. Limited

j, Employee benefits

Provident fund

The Company contributed to employees provident fund benefits through a trust "Max Financial Services Limited Provident Fund Trust" managed by Max Financial Services Limited (erstwhile Max India Limited) whereby amounts determined at a fixed percentage of basic salaries of the employees are deposited to the trust every month. The benefit vests upon commencement of the employment. The interest rate payable by the trust to the beneficiaries every year is notified by the government and the Company has an obligation to make good the shortfall, if any, between the return from the investments of the trust and the notified interest rate. The Company has obtained actuarial valuation to determine the shortfall, if any, as at the Balance Sheet date.

Gratuity

Gratuity liability is a defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit credit method. Net interest is calculated by applying the discount rate to the net defined benefit (liabilities/assets). The Company recognized the following changes in the net defined benefit obligation under employee benefit expenses in statement of profit and loss

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the

Compensated Absences

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The Company presents the leave as a current liability in the balance sheet, to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Where Company has the unconditional legal and contractual right to defer the settlement for a period 12 months, the same is presented as non-current liability.

Short-term obligations

Liabilities for wages and salaries, including non monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognized in respect of employee service upto the end of the reporting period and are measured at the amount expected to be paid when the liabilities are settled. the liabilities are presented as current employee benefit obligations in the balance sheet.

Liabilities for wages and salaries, including non monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognized in respect of employee service upto the end of the reporting period and are measured at the amount expected to be paid when the liabilities are settled. the liabilities are presented as current employee benefit obligations in the balance sheet.

k. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

l. Earning per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

m. Foreign currencies

Items included in the restated financial statements are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The Company's restated financial statements are presented in Indian rupee ('Rs.') which is also the Company's functional and presentation currency.

Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rate prevailing at the date of transaction. However, for practical reasons, the Company uses an average rate if the average approximates the actual rate at the date of the transaction.

Measurement of foreign currency items at the balance sheet date

Foreign currency monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Max I. Limited

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

Exchange differences arising on settlement or translation of monetary items are recognized as income or expense in the period in which they arise with the exception of exchange differences on gain or loss arising on translation of non-monetary items measured at fair value which is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognized in OCI or profit or loss, respectively).

n. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (i) In the principal market for the asset or liability, or
- (ii) In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the restated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- (i) Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- (ii) Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- (iii) Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the restated financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company's management determines the policies and procedures for both recurring and non-recurring fair value measurement measured at fair value.

External valuers are involved for valuation of significant assets, such as properties and financial assets and significant liabilities. Involvement of external valuers is decided upon annually by the management. The management decided, after discussions with the Company's external valuers which valuation techniques and inputs to use for each case.

At each reporting date, the management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Company's accounting policies.

The management in conjunction with the Company's external valuers, also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Disclosures for valuation methods, significant estimates and assumptions (note 30)
- Quantitative disclosures of fair value measurement hierarchy (note 30)
- Investment in unquoted equity shares of subsidiary (note no 5)
- Financial instruments (including those carried at amortised cost) (note 30)

Max I. Limited

2.3 Significant accounting judgements, estimates and assumptions

The preparation of the Company's restated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the restated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

(a) Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Company establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective domicile of the companies.

(b) Gratuity benefit

The cost of defined benefit plans (i.e. Gratuity benefit) is determined using actuarial valuations. An actuarial valuation involves making various assumptions which may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. In determining the appropriate discount rate, management considers the interest rates of long term government bonds with extrapolated maturity corresponding to the expected duration of the defined benefit obligation. The mortality rate is based on publicly available mortality tables for the specific countries. Future salary increases and pension increases are based on expected future inflation rates. Further details about the assumptions used, including a sensitivity analysis, are given in Note 21

(c) Fair value measurement of financial instrument

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

(d) Impairment of Financial assets

The impairment provisions of financial assets are based on assumptions about risk of default and expected loss rates. the Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

Max I. Limited

2.4 Changes in accounting policies and disclosures

New and amended Standards

The Company applied Ind AS 116 Leases for the first time. The nature and effect of the changes as a result of adoption of this new accounting standard is described below.

Several other amendments apply for the first time for the year ended March 31, 2020, but do not have an impact on the financial statements of the Company. The Company has not early adopted any standards, amendments that have been issued but are not yet effective/notified.

a) Ind AS 116 Leases

Ind AS 116 supersedes Ind AS 17 Leases, including Appendix A of Ind AS 17 Operating Leases-Incentives, Appendix B of Ind AS 17 Evaluating the Substance of Transactions Involving the Legal Form of a Lease and Appendix C of Ind AS 17, Determining whether an Arrangement contains a Lease. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to recognise most leases on the balance sheet.

Lessor accounting under Ind AS 116 is substantially unchanged from Ind AS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in Ind AS 17. Therefore, Ind AS 116 did not have an impact for leases where the Company is the lessor.

The Company adopted Ind AS 116 using the modified retrospective method of adoption with the date of initial application of April 01, 2019. Under this method, the right-of-use asset is recognized at the date of initial application. The right-of-use asset is measured at an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognized in the balance sheet immediately before the date of initial application.

The Company does not have lease contract thus, Ind AS 116 does not have any material impact on the Company

b) Appendix C to Ind AS 12 Uncertainty over Income Tax Treatment

The appendix addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of Ind AS 12 Income Taxes. It does not apply to taxes or levies outside the scope of Ind AS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments. The Appendix specifically addresses the following:

- Whether an entity considers uncertain tax treatments separately
- The assumptions an entity makes about the examination of tax treatments by taxation authorities
- How an entity determines taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates
- How an entity considers changes in facts and circumstances

The Company determines whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments and uses the approach that better predicts the resolution of the uncertainty.

The Company applies significant judgement in identifying uncertainties over income tax treatments.

Upon adoption of the Appendix C to Ind AS 12, the Company considered whether it has any uncertain tax positions, particularly those relating to transfer pricing. The Company's and the subsidiaries' tax filings in different jurisdictions include deductions related to transfer pricing and the taxation authorities may challenge those tax treatments. The Company determined, based on its tax compliance and transfer pricing study, that it is probable that its tax treatments (including those for the subsidiaries) will be accepted by the taxation authorities. The Appendix did not have an impact on the financial statements of the Company.

The major components of income tax expense for the year ended March 31, 2020 and March 31, 2019 are :

Statement of profit and loss :**Profit and loss section**

Particulars	(Rs. in '000)	
	for the period ended March 31, 2020	for the period ended March 31, 2019
Current income tax :		
Current tax	56,614	6,026
MAT credit entitlement	-	-
Deferred tax :		
Relating to origination and reversal of temporary differences	(4,396)	2,388
Income tax expense reported in the statement of profit and loss	52,218	8,414

OCI section :

Deferred tax related to items recognised in OCI during in the year :

Particulars	for the period ended	
	March 31, 2020	March 31, 2019
Income tax charge/(credit) on remeasurements of defined benefit plans	5.51	-
Income tax charged to OCI	5.51	-

Reconciliation of tax expense and the accounting profit multiplied by India's domestic tax rate for March 31, 2020 and March 31, 2019:

Particulars	for the period ended	
	March 31, 2020	March 31, 2019
Accounting profit/(loss) before tax	217,534	28,647
Accounting profit/(loss) before income tax	217,534	28,647
At India's statutory income tax rate of 29.12 % (March 31, 2019: 29.12 %)	63,346	8,342
Non-Taxable Income for tax purposes:		
Dividend income	-	-
Unwinding of interest on zero coupon non-convertible debentures	-	-
Impact of indexation on capital gain	-	-
Deduction u/s 80 IC	-	-
Others		
Disallowances on account of exempt income u/s 14A	-	-
Other non-deductible expenses	(11,127)	72.00
Other non-deductible expenses		
Earlier year tax adjustment	-	-
Business loss	-	-
Others	-	-
Difference in Tax Base and Book Base of Investments	-	-
At the effective income tax rate	52,218	8,414
Income tax expense reported in the statement of profit and loss	52,218	8,414
Total tax expense	52,218	8,414

Deferred tax relates to the following:

	March 31, 2020	March 31, 2019
Deferred tax liabilities		
Impact of equity portion on non-convertible debentures	24,584	51,789
Impact on fair valuation of investments	68,919	60,782
Others	382	14
Gross deferred tax liabilities (a)	93,885	112,585
Deferred tax assets		
Effect of expenditure debited to the statement of Profit and Loss in the current year/earlier years but allowed for tax purposes in following years	-	6,016
Others	-	-
Gross deferred tax assets (b)	-	6,016
	93,885	106,569
MAT Credit	-	(12,877)
Deferred tax liabilities (net)	93,885	93,692

Reflected in the balance sheet as follows:

Reconciliation of deferred tax liabilities (net):

Particulars	March 31, 2020	March 31, 2019
Opening balance as of April 1	(106,569)	(97,210)
Tax expense/(income) during the period recognised in profit or loss	4,396	(2,388)
Tax expense/(income) during the period recognised in OCI	6	-
Adjusted from Investment in Non convertible debentures and fair valuation	8,293	(6,971)
Closing balance as at March 31 (before adjustment of MAT credit)	(93,885)	(106,569)
MAT credit	-	(12,877)
Closing balance as at March 31	(93,885)	(93,692)

The company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.

d) Net defined benefit expense (recognized in the statement of profit and loss for the period)		
Current service cost	78	55
Past service cost	-	-
Interest cost on benefit obligation	4	21
Expected return on plan assets	-	-
Net defined benefit expense debited to statement of profit and loss	82	76
e) Broad categories of plan assets as a percentage of total assets		
Insurer managed funds	0%	0%
f) Principal assumptions used in determining defined benefit obligation		
Assumption particulars	for the year ended March 31, 2020	for the year ended March 31, 2019
Discount rate	6.76%	7.66%
Salary escalation rate	10.00%	10.00%
Mortality Rate (% of IALM 06-08)	100.00%	100.00%
g) Quantitative sensitivity analysis for significant assumptions is as below:	for the year ended March 31, 2020	for the year ended March 31, 2019
Increase / (decrease) on present value of defined benefits obligations at the end of the period		
<u>Discount rate</u>		
Increase by 0.50%	(19)	(7)
Decrease by 0.50%	22	8
<u>Salary growth rate</u>		
Increase by 0.50%	21	8
Decrease by 0.50%	(19)	(7)
h) Maturity profile of defined benefit obligation (valued on undiscounted basis)	for the year ended March 31, 2020	for the year ended March 31, 2019
Within the next 12 months (next annual reporting period)	-	-
Between 2 and 5 periods	5	3
Beyond 5 periods	152	53
Total expected payments	157	56
i) The average duration of the defined benefit plan obligation at the end of the reporting period is 25.57 periods (March 31, 2019 : 26.22 periods)		
j) The estimates of rate of escalation in salary considered in actuarial valuation are after taking into account inflation, seniority, promotion and other relevant factors including supply and demand in the employment market. The above information is as certified by the Actuary.		
k) Discount rate is based on the prevailing market yields of Indian Government securities as at the balance sheet date for the estimated term of the obligations.		
l) The sensitivity analysis above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.		

Leave Encashment (unfunded)

The Company recognises the leave encashment expenses in the Statement of Profit and loss based on actuarial valuation

The expenses recognised in the Statement of Profit & Loss and the Leave encashment liability at the beginning and at the end of the year:

	(Rs. in '000)	
	for the year ended March 31, 2020	for the year ended March 31, 2019
Liability at the beginning of the year	137	234
Benefit paid during the year	-	(274)
Provided during the year	174	177
Liability at the end of the year	311	137

22 A. Financial instruments

The comparison of carrying value and fair value of financial instruments by categories that are not measured at fair value are as follows:

Category	(Rs. in '000)			
	Carrying value		Fair Value	
	March 31, 2020	March 31, 2019	March 31, 2020	March 31, 2019
1) Financial asset at amortized cost				
Other financial assets	2,838	2,448	2,838	2,448
Cash and cash equivalents	621	478	621	478
2) Financial liabilities at amortized cost				
Borrowings	489,628	584,970	584,370	584,970

3) Financial asset carried at fair value through statement of profit & loss				
investments	1,040,699	1,009,689	1,040,699	1,009,689

The Company assessed that trade receivables, cash and cash equivalents and trade payables are considered to be the same as their fair values, due to their short term nature.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

The fair value of unquoted instruments, borrowings and other financial liabilities as well as other noncurrent financial liabilities are estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities. The valuation requires management to use observable and unobservable inputs in the model, of which the significant observable and unobservable inputs are disclosed in the table below. Management regularly assesses a range of reasonably possible alternatives for those significant observable and unobservable inputs and determines their impact on the total fair value.

Reconciliation of fair value measurement of investment in unquoted equity shares/debentures/preference shares/ venture capital fund measured at FVTPL: (Level III)

Particulars	(Rs. in '000)
As at March 31, 2019	1,009,689
Purchase	8,314
Impact of fair value movement	279,420
Sales	(256,725)
As at March 31, 2020	1,040,699

Max I. Limited**Notes forming part of the financial statements****B. Fair value hierarchy**

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities

Level 2: other techniques for which all inputs that have a significant effect on the recorded fair value are observable, either directly or indirectly

Level 3: techniques that use inputs that have a significant effect on the recorded fair value that are not based on observable market data

(i) Quantitative disclosure of fair value measurement hierarchy for financial assets as on March 31, 2020

Max I. Limited**Notes forming part of the financial statements****23 Financial risk management objectives and policies**

The Company's has instituted an overall risk management programme which also focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial performance. The Company uses forward covers to hedge foreign currency risk exposures. Financial risk management is carried out by a Corporate Finance department under policies approved by the audit committee from time to time. The Corporate Finance department, evaluates and hedges financial risks in close co-operation with the various stakeholders. The audit committee approves written principles for overall financial risk management, as well as written policies covering specific areas, such as foreign exchange risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

The Company is exposed to capital risk, market risk, credit risk and liquidity risk. These risks are managed pro-actively by the Senior Management of the Company, duly supported by various Groups and Committees.

a) Capital risk

The Company's objective when managing capital is to safeguard its ability to continue as a going concern in order to provide returns to its shareholders and benefits for other stakeholders and to provide for sufficient capital expansion. The capital structure of the Company consists of debt, which includes the borrowings disclosed in note 8, cash and cash equivalents disclosed in note 6 and equity as disclosed in the statement of financial position.

b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company employees prudent liquidity risk management practices which inter alia means maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities. Given the nature of the underlying businesses, the corporate finance maintains flexibility in funding by maintaining availability under committed credit lines and this way liquidity risk is mitigated by the availability of funds to cover future commitments. Cash flow forecasts are prepared not only for the entities but the Group as a whole and the utilized borrowing facilities are monitored on a daily basis and there is adequate focus on good management practices whereby the collections are managed efficiently. The Company while borrowing funds for large capital project, negotiates the repayment schedule in such a manner that these match with the generation of cash on such investment. Longer term cash flow forecasts are updated from time to time and reviewed by the Investment and Performance Review Committee of the Board.

The table below represents the maturity profile of Company's financial liabilities at the end of March 31, 2019 and March 31, 2020 based on contractual undiscounted payments :-

(Rs. in '000)

March 31, 2019	0-1 Years	1-5 Years	More than 5 Years	
Interest bearing borrowings	52,815	532,154	-	584,969
Trade payable	9,482	-	-	9,482
% to Total	10.48%	89.52%	0.00%	100.00%
March 31, 2020				
Interest bearing borrowings	48,309	441,319	-	489,628
Trade payable	3,424	-	-	3,424
% to Total	10.49%	89.51%	0.00%	100.00%

c) Credit risk

Credit Risk is the risk that the counter party will not meet its obligation under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

(i) Trade receivables

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Management evaluate credit risk relating to customers on an ongoing basis. Receivable control management Department assesses the credit quality of the customer, taking into account its financial position, past experience and other factors. The Company provides credit to individuals on exceptional basis only. An impairment analysis is performed at each reporting date on an individual basis.

(ii) Financial instruments and cash deposit

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made in bank deposits and other risk free securities. The limits are set to minimize the concentration of risks and therefore mitigate financial loss through counter party's potential failure to make payments. Credit limits of all authorities are reviewed by the management on regular basis. All balances with banks and financial institutions is subject to low credit risk due to good credit ratings assigned to the Company.

The Company's maximum exposure to credit risk for the components of the balance sheet at March 31, 2020 and March 31, 2019 is the carrying amounts as illustrated in the liquidity table above.

d) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprises three types of risk: currency rate risk, interest rate risk and other price risks, such as equity price risk and commodity price risk. Financial instruments affected by market risks include loans and borrowings, deposits, investments and foreign currency receivables and payables. The sensitivity analyses in the following sections relate to the position as at March 31, 2020 and March 31 2019. The analyses exclude the impact of movements in market variables on; the carrying values of gratuity and other post-retirement obligations; provisions; and the non-financial assets and liabilities. The sensitivity of the relevant Profit and Loss item is the effect of the assumed changes in the respective market risks. This is based on the financial assets and financial liabilities held as of March 31, 2020.

The Company has derivative financial instruments such as foreign currency forward contracts to mitigate the risk of changes in exchange rate on foreign currency exposures. The counterparty for these contracts is generally a bank or a financial instruments. The details of the outstanding foreign exchange forward are as follows:

(Rs. in '000)

Particulars	March 31, 2020	March 31, 2019
Payables in USD	-	-

(ii) Interest rate risk

Interest rate is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long term debt obligation at fixed interest rates.

Interest rate Sensitivity of Borrowings

With all other variables held constant, the following table demonstrates the sensitivity to a reasonably possible change in interest rates on fixed rate portion of loans and borrowings.

(Rs. in '000)

Period	Increase/decrease in interest rate	Effect on profit before tax
March 31,2020	0.50%	1,224
March 31,2019	0.50%	1,462

Notes forming part of the financial statements

- 26 As the Company's business activity primarily falls within a single business and geographical segment, thus there are no additional disclosures to be provided under Ind AS 108 - " Operating Segment". The management considers that having investments in companies and providing shared services to group companies constitutes single business segment, since the risk and reward from these services are not different from one another.

27 Capital Management

For the purpose of the Company's capital management, capital includes issued equity attributable to the equity shareholders of the Company, share premium and all other equity reserves. The primary objective of the Company's capital management is that it maintain an efficient capital structure and maximize the shareholder value. The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, The Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings, trade and other payables, less cash and cash equivalents, excluding discontinued operations.

	(All amounts in Rupees '000)	
	As at March 31, 2020	As at March 30, 2019
Borrowings	489,628	584,969
Trade payables	3,424	9,482
Less: Cash and Cash equivalents	621	478
Net Debt	492,431	593,973
Equity	457,857	317,625
Total Equity	457,857	317,625
Total Capital and net debt	950,288	911,598
Gearing ratio	108%	187%

- 28 During the year ended March 31, 2020, The Company has divested 72,708 equity shares of Rs. 10 each of FSN E- Commerce Ventures Private Limited for a total consideration value of INR 256,659 ('000).
- 29 The Company has adopted Ind AS 116 "Leases" effective 1 April 2019, as notified by the Ministry of Corporate Affairs (MCA) in the Companies (Indian Accounting Standard) Amendment Rules, 2019, using modified retrospective method. The adoption of this standard did not have any material impact on transition or on the profit for the year ended March 31, 2020.
- 30 The outbreak of Coronavirus (Covid-19) pandemic globally and in India is causing significant disturbance and slowdown of economic activity. In many countries, businesses are being forced to cease or limit their operations for long or indefinite period of time. Measures taken to contain the spread of the virus, including ban on travel, quarantine, social distancing, and closure of non-essential services have triggered significant disruptions to businesses worldwide, resulting in an economic slowdown. Covid-19 is significantly impacting business operation of the companies, by way of interruption in production, supply chain disruption, unavailability of personnel, closure/ lock down of production facilities etc. On March 24, 2020, the Government of India ordered a nationwide lockdown for 21 days which further got extended till May 17, 2020 to prevent community spread of Covid-19 in India resulting in significant reduction in economic activities.

The Company is having investments in various companies and primarily engaged in growing and nurturing these business investments and providing shared services to group companies. Despite the lockdown, the Company continued to provide shared services and nurture business investments under 'Work from Home' policy followed by the Company in accordance with the advisory issued by the Ministry of Home Affairs, Central Government (vide notification no. 40-3/2020-DM-1(A) dated March 24, 2020 read with addendum order dated March 25, 2020), according to which, the companies may continue to conduct its operations by allowing employees to work from home.

The Company has made detailed assessment of its liquidity position for the next year and the recoverability and carrying values of its assets and investments up to the date of approval of these Ind AS financial statements and have concluded that no material adjustments required at this stage in the financial statements of the Company for the year ended March 31, 2020

However, the impact assessment of Covid-19 is a continuing process given the uncertainties associated with its nature and duration. The impact of Covid-19 may be different from that estimated as at the date of approval of these Ind AS financial statements and the Company will continue to monitor any material changes to future economic conditions.

- 31 Figures relating to March 31, 2019 has been regrouped/reclassified wherever necessary to make them comparable with the current year figures.
- 32 Note No.1 to 31 form integral part of the Balance sheet and Statement of profit and loss.
